Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.

Applicants' assignee filed a corresponding PCT application on July 16, 2002 with a designation of the U.S., and this PCT application claims the same priority as the present application. The decision to extend patent protection was made shortly before the filing of the said PCT application, and the delay in filing the statement under 35 USC (122)(b)(2)(B)(ii) resulted unintentionally from a docket error by the below-signed agent.

Respectfully submitted,

David Hall et al.
